ACCUSED OF AIDING OBERLIN M. CARTER.

Court Confirms the Order for Further Trials in Connection With the Fraud Conspiracy.

REPUBLIC SPECIAL.

New York, May 15 .- Judge Brown of the States District Court to-day affirmed the decision of Commissioner Shields ordering that Colonel John F. Gaynor, his brothers. William T. and Edward H. Gaynor, and Captain Benjamin D. Green shall appear in Savannah, Ga., for trial on the charge of conspiracy to de-fraud the Government in connection with former Captain Oberlin M. Carter.

Compton Heights will be without adequate street-car sarvice for forty-eight hours next week, probably Wednesday and Thursday. Residents of the central portion of Compton Heights will be obliged to go to Grand avenue. Jefferson avenue or Park avenue for a car. The Water Department has issued instructions to the St. Louis Transit Company that cars will not be permitted to run across Compton avenue while extension work is in progress.

A force of workmen is laying 36-inch water mains on Russell avenue. Troy will reach Compton avenue to Compton avenue. They will reach Compton avenue Wednesday or Thursday. It will take about forty-eight hours to connect the mains there. The 36-inch pipes will have to be buried beneath a 36-inch gas main and a 30-inch water main. Traffic will not be permitted at Compton and Bussell avenues while the work is being done. In fact, the corner will be absolutely impassable. Probably the Compton Heisths cars will run over Grand avenue. Captain Carter was found guilty of em-bessiement on the contracts held by Green and the Gaynors. He is now serving a five-

MISSES' BLOUSE ETON.

Jaunty blouse Etons in this mode may be made of cheviot, ladies' cloth or Venetian, to be worn as separate outside garments. They also come "en suite," with skirts of cloth, linen, canvas or pique, and make stylish outdoor costumes for general wear.

As illustrated, the blouse is made of marine-blue cheviot combined with white cloth and blue velvet. It is simply adjusted with shoulder and underarm seams.

The back is plain and the fullness in front forms a blouse over the velvet belt. The fronts are underfaced with velvet and turned back to form wide revers.

12 16 and 16 years.

The sailor collar of white cloth gives the desired width across the shoulders and is edged with a stitched band of cloth.

There is slight fullness on the shoulders of the one-main bishop aleeves, which are gathered at the lower edge and completed with narrow velvet wristbunds.

To make the Eton for a miss 14 years old will require one and three-eighths yards of 50-inch material, with one-half yard of velvet. The pattern, No. 8344, is cut in sizes for misses 12, 14 and 15 years.

THE REPUBLIC PATTERN COUPON FILL IN NAME AND ADDRESS. NO. 8344

Be sure to give age, name and address, and mail with 16 cents to THE PATTERN DEPARTMENT OF THE REPUBLIC

Any one wishing the latest style patterns may obtain them by calling at room 20, second floor, Repubhe building, Seventh and Olive.

REPUBLICAN POLICY.

Governor McCreary of Kentucky Says Democratic Spirit Is Stronger Than Ever.

SOUTH OPPOSES

REPUBLIC SPECIAL

Washington, May 15 .- Former Governor McCreary of Kentucky, formerly Representative in Congress, arrived in Washington last evening. He was chosen chairman of the State Committee for the Democratic party and conducted the successful campaign in the State last year, the result being, not only that the Democratic Governor was elected, but that it was the only State which Bryan carried with a conspicuous gain over the vote of '96. It is expected that, if the Democrats carry the Kentucky Legislature this fall, Governor McCreary will be chosen to succeed Deboe in United States Senate. reckoned as a Democratic State?"

"I do," the Governor replied. "The party is thoroughly organized throughout the State and is in perfect harmony. At no time has there been better feeling within the party. At the election this fall I think we will carry the State by fifteen or twen-ty thousand, having a majority in both branches of the Legislature and a large majority on joint ballot. The Legisla-ture then elected will choose a United

States Senator."

States Senator."

"Have you observed a tendency in the South toward the adoption of Republican policies, as indicated in some recent utterances?" was asked.

"My observation does not extend throughout the South." he replied. "I know that in Kentucky the tendency is not toward the adoption of Republican policies. On the contrary, Democratic sentiment is growing stronger. I observe that this is true also

contrary, Democratic sentiment is growing stronger. I observe that this is true also of Alabama, where I am familiar with coaditions, and I believe that Democratic sertiment is growing stronger in the South generally. The Southern people do not believe in high protection, in colonization, in a large standing army nor in trusts.

"The more closely the Republican party becomes identified with colonization, as exemplified in the Philippines; with the maintenance of a large standing army, and with the trusts, the stronger becomes the spirit of Democracy in the South. The Southern people do not believe in these things and can have no sympathy with a party which is identified with them." a desperate effort to obtain a reversal of the finding against him. It was on the evidence that brought about Carter's conviction that indictments against Green and the Gaynors were based. The indictments were found by the Federal Grand Jury in the Southern District of Georgia, and the defendants at once surrendered themselves to the Federal authorities in this city. Heavy bonds were imposed.

In the consideration of the garbage ques-tion, which is an important one, two phases of the subject, which are separate and distinct must be borne in mind; i. e., the first relates to the collection of the garbage and the second to its reduction. It

works by a company operating under a centract with the city, and is reduced by an entirely different company, operating under an entirely different contract.

The garbage is collected by the Excelsior Hauling and Transfer Company under a contract with the city which does not expire till July, 1908. The committee is informed that the above contract for the collection of the garbage was let by the Board of Health under competitive bids, and that the bid of the Excelsior Hauling and Transfer Company was much the lowest bid of any submitted.

It has been charged in the public press that the contract has been repeatedly violated in that the company has failed in its obligations to collect the garbage as required by law. In this connection we call attention to the following provisions of ordinances:

Section 2 of ordinance 17412 approved.

obligations to collect the garbage as required by law. In this connection we call attention to the following provisions of ordinances:

Section 2 of ordinance 1743, approved March 20, 1894, provided that the Chief Sanitary Officer shall carefully inspect the city for the purpose of determining whether all the slope, garbage and animal matter are properly collected and disposed of, and shall make weekly reports to the Board of Health regarding any violation or neglect of the laws and contracts relating to the collection of the same.

Section 21 of ordinance 1965, approved June 28, 1898, provides that the contract for the collection and removal of the garbage may be terminated at any time by the Board of Health, whenever the contractor fails in the performance of his duty, and that the Board of Health shall be the sole judge whether such fallure has occurred.

The committee is informed that in pursuance of said charter provisions the contract between the city and the Excelsion The contract for the removal of dead animals and garbage may be terminated at any time by the Board of Health, whenever the contractor shall refuse or neglect to perform any of the stipulations thereof, and as to the fact of such refusal or neglect the said Board shall reserve to itself the exclusive right of determining."

It is thus seen that the powers given the Board of Health are plenary and sweeping, and it is obvious that if any action should be taken for the cancellation of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action of said contract it must be done through the action

not in a position to act in respect to these matters. They are beyond its jurisdiction and rest exclusively with the Board of Health.

In respect to garbage reduction:
It is shown by the message of the Mayor, already referred to, that the contract between the city and the St. Louis Sanitary Company for the reduction of the garbage will expire on September 23, 1901. By the terms of the contract the city has the right to purchase the reduction works of the Sanitary Company at a price to be fixed by arbitration.

The principal question that has been referred to and considered by your committee is whether it is to the interest and benefit of the City of St. Louis to make such purchase. However attractive municipal ownership may appear when viewed from a theoretical standpoint, it is, nevertheless, true that when put in practice it should be taken as a cold business proposition and determined not by sentiment, but by the consideration alone of profit and loss.

In determining whether the city ought to purchase, three main facts must be consideration alone of profit and loss.

In determining whether the city ought to purchase, three main facts must be consideration alone of profit and loss.

In determining whether the city ought to purchase, three main facts must be consideration alone of profit and loss.

In determining whether the city ought to purchase, three main facts must be consideration alone of profit and loss.

In octamination and loss.

In determining whether the city ought to purchase, three main facts must be considered for persiting the same, and, thirdly, the probable cost of operating the same, and, thirdly, the probable treating the same, and, thirdly, the probable will be value of the residue products which has the same, and, thirdly, the probable cost of operating the same, and, thirdly, the probable cost of purchased; secondly, the probable cost of the square to these questions, but with very unsatisfactory results.

No city officer has been so intimately connected in an official way with the garb to the inevitable conclusion that if satisfactory and reliable information is to be derived it must be through the employment of a trained expert, who can personally inspect the plant and who is familiar with values. No member of the committee has heretofore been inside a garbage works, nor possesses in any sense expert knowledge of this subject, and at the best the committee has only loose statements of value to guide them. It is important for the city's interests that no false step be taken. It is believed that any intelligent business man, situated as is the city, would only be satisfied with the report of a competent expert. The cost of employing an expert is small in comparison with the importance of the matters involved. No forward step looking to the acquisition of the garbage plant can be taken by the city till some approximate knowledge is obtained as to the value of the plant, and on this question expert opinion is all important. Another phase of the garbage equation will now be considered. In the event that the city should ultimately determine not to buy the garbage plant, it will no doubt be necessary to enter into a new contract with the Sanitary Company for the reduction of the city garbage. This will bring up for determination the question whether the price paid under the present contract is a reasonable one. Under the existing contract, the Sanitary Company for the reduction of the city garbage reduced has been in ever increasing proportions since the plant was set in operation. A report furnished by the Health Commissioner shows that the amount of garbage reduced has exceeded 100 tons per day, and therefore the Sanitary Company. For the past seven years the amount of garbage reduced has exceeded 100 tons per day, and therefore the Sanitary Company has been entitled, under its contract, to be paid \$180 per day, or approximately \$65,000 per annum. A report furnished by the Health Commissioner shows that the amount of garbage reduced has been in ever increasing proportions since the plant was \$2,2

1808-70.478 tons.

1809-74.092 tons.

As before stated, the important question will arise, in case the city does not operate its own garbage plant, whether the amount paid the Sanitary Company, 2 cents per 100 pounds of matter reduced, is a reasonable price, and should be paid in any future contract that may be entered into. With a view of throwing light on this question, your committee has sought information as to the quantity of the residue products derived from the garbage and the value of the same, ut no sufficient data is at hand to form an atelligent opinion. The Health Commissioner has stated that he has no official knowledge of the amount of residue or its value; the officers of the Sanitary Company have very naturally declined to make disclosures on these points, and your committee has no expert testimony from which it can deduce conclusions. It has airendy been suggested that an expert is needed by the city to determine the value of the garbage plant; we add that the views of an expert are equally essential to determine the value of the residue products derived from the garbage, which has a most decisive bearing on the price which the city should in fairness pay for the reduction. One very prominent fact to which attention is called is the enormous increase in the amount of garbage reduced from year to year. It has mounted up from 20,615 tons in 1892 to 78,93 tons in 1909. It is obvious that with a vast increase of the amount of matter reduced there must be a vast increase in the value of the residue products, without a corresponding increase in the value of the residue products, without a corresponding increase in the value of the residue products, without a corresponding increase in the value of the residue products, without a corresponding increase in the cost of the operation of the plant. It would, therefore, seem that when the city pays 9 cents per 100 pounds and furnished only thirty or forty thousand tons per annum, that it should pay a less rate when it furnishes between seventy and eighty th

lection and reduction of garbage, humped

In conclusion your committee recommends that the city incur the expense of employing a trained expert, who can give reliable and satisfactory information as to the value of the garbage plant, the annual cost of operating and the market value of the residue products derived from the garbage.

JEREMIAL SUPPLIAN

JEREMIAH SHEEHAN. CHARLES E. GIBSON,
Committee on Sanitary Affairs.
Mr. Markham moved that the report be

adopted.

Mr. Hodges moved as an amendment that the report be received.

Carried.

Mr. Newell from the Committee on Engrossed and Enrolled Bills submitted the following report:

Council Chamber.

Council Chamber,
St. Louis, May 14, 1801.

To the President of the Council:
Sir-Your Committee on Engrossed and
Enrolled Bills report that they find the following entitled bill truly engrossed and correct, to wit:
Council Bill No. 14. An ordinance authorizing the United Railways Company of
St. Louis to abandon the operation of cars
over that part of its railway on Maryland
avenue west of Encild avenue and to remove all that part of its tracks on Maryland avenue west of Encild avenue, upon
certain conditions,
JAS, P. NEWELL,

JAS. P. NEWELL,

Council Bill No. 14, as above, was read third time and passed by the following vote: Ayes—Messars. Boyce, Gibson, Hodges, Hoffmann, Horton, Markham, Meysenburg, Newell, Schnell, Sheehan, Spiegelhalter and Mr. President Hornsby—12.

Noes—0.
Absent—Mr. Richards—1.
Mr. Newell from the Committee on Engrossed and Enrolled Bills submitted the following report:

Council Chamber,

Council Chamber,
St. Louis, May 14, 1901.
To the President of the Council: Sir-Your Committee on Engrossed and Enrolled Bills report the following as truly Enrolled Bills report the following as truly enrolled, to wit:

Council Bill No. 8. An ordinance establishing the rate and percentage of taxes to be levied and collected for the year 1891.

Council Bill No. 11. An ordinance authorizing the use of either O'Fallon Park or Carondelet Park or a portion of Forest Park as a site for the World's Fair, to be held in commemoration of the Louisiana Purchase.

JAS. P. NEWELL,

Council Bills Nos. 6 and 11, as above, were read at length. No objection being made and all other business being suspended, Mr. President Hornsby, in the presence of the Council in open session, affixed his signature thereto, in accordance with the provisions of the Charter.

Mr. Boyce from the Committee on Municipal Affairs submitted the following report:

Mr. President:
Your Committee on Municipal Affairs, to whom was referred the following resoluwhom was referred the following resolu-tion:

Resolved. That the Board of Public Im-provements be requested to prepare an or-dinance to regulate the connections from property outside the city limits with city sewers.

Respectfully report that they have consid-ered the same and recommend its adop-tion.

JOS. BOYCE.

Mr. Sheehan moved the adoption of the

vice and opinion as to the liability of the city for the payment of the Deputy Sheriffs and the expense incurred by the Sheriff during the strike of the street railway men last summer.

Complying with your directions that I furnish the Comptroller with such opinion, I beg to say that section 1004 of the Revised Statutes of Missouri of 1800 provides that in case of emergency the Sheriff shall be authorized to appoint sworn deputies who shall serve not exceeding thirty days, and who shall for their services receive two dollars per day "to be paid out of the county treasury."

Section 5219 of the Statutes makes it the duty of the Sheriff of every dity having a population of three hundred thousand inhabitants or more, whenever called on for that purpose by the Board of Police Commissioners, to act under the control of the board for the preservation of the public pence and quiet, and whenever ordered by them so to do to summon a posse and to hold and employ the same subject to their direction, etc.

Under these provisions it seems that the Sheriff of this City duly summoned certain citizens possessing the qualifications required by the statute, to sat as Deputy Sheriffs, and employed them in conformity with these statutory provisions.

In my opinion, the deputies so summoned, appointed and employed are entitled to be paid out of the City Treasury an amount equal to two dollars for each day of service rendered by them. Should the city fail to make provision for such payment, in my opinion it can be enforced by legal proceedings. A failure by the proper city authorities to voluntarily provide for liquidation of these claims will probably result in a flood of litigation, the end being the city will have to pay with large and unnecessary court costs.

I need scarcely add that while section isota speaks of a payment out of the "county" its used in any law general in its character and applicable to the word evaluation of these claims will probably result in a flood of litigation, the end being the city will have to pay wi

Carried.
Mr. Horton moved that when the Council adjourns it adjourn to meet Wednesday, May 15, at 5 p. m.
Carried.
On motion of Mr. Schnell the absentees were excused.
Mr. Meysenburg moved that the Council do now adjourn.

Dr. BOHANNAN

Mr. Sheehan moved as an amendment that the resolution be amended so as to request the Sewer Commissioner to dratthe ordinance.

The chair ruled the motion out of order. Mr. Gibson moved to amend by recommitting the report.

Carried.

Mr. Boyce from the Committee on Conference on temporary appropriation bill

Carried.

Mr. Boyce from the Committee on Conference on temporary appropriation bill submitted the following report:

St. Louis, May 14, 1991.

To the Honorable Municipal Assembly of the City of St. Louis:

Gentlemen—Your Committee of Conference on Councill Bill No. 3, relative to temporary appropriations, etc., respectfully report that they have duly considered the matter and have agreed to disagree upon concurrence in House amendments to said bill, and respectfully recommend the appointment of another Committee of Conference.

JOS. HOYCE,

JEREMIAH SHEEHAN,

JAS. P. NEWELL,

Conferees on Part of Council.

JOHN P. SWEENEY,

CHAS. F. KEBLLY,

JOHN B. WILLIAMS,

Conference on Part of House.

Mr. Boyce, chairman of the Conference Committee, submitted the following communication from the City Counselor in commencion with the committee's report.

City of St. Louis, Mo., May 9, 1901.

Honorable Rolla Wells, Mayor of the City of St. Louis:

Dear Sir—I have the honor to acknowledge recept of a communication to you from the Honorable Comptroller asking my advice and opinion as to the liability of the city for the payment of the Deputy Sheriffs and the expense incurred by the Sheriff during the strike of the street railway men last summer.

Complying with your directions that I fur-

On motion of Mr. School of Mr. Were excused.
Mr. Meysenburg moved that the Council do now adjourn.
Carried.
Whereupon the Council adjourned to meet Wednesday, May Is, at 5 o'clock, GEORGE F. MOCKLER.
GEORGE F. MOCKLER.
